**BREATHABLE & COMFORTABLE MATERIAL** - One set postpartum girdles meet the needs of all your throughout postpartum healing process. Breathable & Comfortable material high quality lightweight fabric waist trainer cincher for women, This postpartum belly belt help you correct your posture. It also helps to avoid the belly band from rolling up when you seat or move, very comfortable & breathable to wear and easy to clean.

**MULTIPURPOSE** - Essentials for postpartum recovery helps get your body back to its former post childbirth. This postpartum belly band helps reduce swelling, support core abdominal muscles and return uterus to its original size sooner. It also makes you look instantly slimmer, adding confidence and helping you feel better after have a baby.

**ADJUSTABLE & GREAT FOR MOTHER** - Allows put it on easily by yourself and pull is equal from both sides, readjust how tight you want it without taking off the band, keep you supported for a long time. It is GREAT GIFT for women just after giving birth or anyone had surgical operation resulting in loose skin and back pain. It also has built in boning to help support the lower back and improve posture during breastfeeding.

**SPEED RECOVERY & REDUCE DISCOMFORT** - Helps ease transition of uterus and shrink it down to normal size, support your lower back and hold tummy in, redefine the waistline, relief back pain. Why should I use Belly Belt? Belly belt is designed to prevent postpartum abdominal muscle relaxation and visceral ptosis. To promote uterine contractions and postpartum pelvic recovery correction. To help puerpera regain their beautiful curves. How to Maximize Results To maximize results start wearing this belt immediately after delivery and wear the band as much as possible during the day and night. As soon as you put on the belly band you will feel its slimming support and look instantly slimmer. Continue binding by wearing the belly band until you are back to your pre-baby self or no longer need additional abdominal support.

A: Belly belt- helps getting your stomach and muscles half way back to normal, recommend to use when 1~7 days after natural childbirth
