[Read Customer Reviews](#)

5" in diameter

Evenly distributes waxes, polish, protectants, and dressings

Perfect for interior and exterior

Machine washable and reusable

6 microfiber pads per pack The VIKING Microfiber Applicator Pads are an excellent choice for the hand application of polishes and waxes. The unique fiber structure promotes a smooth and even application. For optimal results, use a fresh applicator pad for different tasks.

Smooth & Even Application

A tried and true option for the hand application of waxes, polish, protectants, and dressings.

Great For Exteriors

Ideal for use on paint, mirrors, grilles, wheels, tires, and even windows.

Detail Your Interiors

These pads are so versatile, you'll discover that they have endless uses.

When to Wax

If rain water does not bead on the painted surfaces of your car, it's time to wax. How often you have to wax your car is dependent on the type of wax you use and the environmental conditions your car is subjected to.
