How we got our start?

In 2016, we decided to embark on a quest to explore Indian heritage and its diverse artistic beauty. We started out as a small business taking inspiration from Indian craftsmen with an aim to preserve and showcase the glory, elegance and lush extravagance of Indian jewelry to the world.

What makes our product unique?

Inspired by traditional Indian Craftsmanship and rich tribal heritage, our range of ethnic jewelry is crafted to perfection to capture every subtle nuance of Indian culture.

Why we love what we do?

We, at Aheli, through our beautiful pieces of jewelry want to pay homage to the unique art of jewelry in India, to diligent talented artists who have designed them, to skilled artisans who have fashioned them, and to all those who have preserved the exquisite art.
