Since 1938, Lassie's story has deeply influenced several generations. As one of the most loyal companions of human beings, dogs have accompanied and moved us from generation to generation. In order to commemorate her, we want to do something for her and other dogs. Lassie's goal is to give them a safe and comfortable environment as much as possible.

The holiday is coming, drove the car and took the dog out to travel. The dog is playing happily in the back seat, you listen to the music and yearn for the beautiful scenery. Suddenly there was a sudden brake, and your dog fell from the seat due to lack of safety protection, and yelled in shock. You rush to stop the car to check if the dog is injured, so you open the door and watch the dog's muddy footprints on the scratched seat by dog's paw and the dripping saliva have made the seat wet. Because of the fright, the dog was scared to urinate directly in the car. Your heart hurts, and the good mood of traveling instantly drops to the bottom. If you use Lassie dog car seat cover, you can completely avoid this kind of thing!

Package Included:
