[Read Customer Reviews](#)

Automate the shut off operations of all types of lights including LEDs, CFLs, fans and heaters at the time pre-set

Six pre-set options: 1min, 5min, 10min, 15min, 20min or 30min; Simply push the button to set countdown time preference

Replaces standard in wall light switches, fan switches or spring loaded timers for energy saving, convenience and lighting and fan control

Blue LED light STAYS ON, easy to locate in darkness. Ideal for bathroom, closet, pantry, garage, laundry room, spa; Due to the bright LED light, bedrooms are not recommended for this feature

Specifications: UL Listed, NEUTRAL WIRE REQUIRED, supports LED/CFL: Incandescent: 800W, Fluorescent: 800VA light bulbs , Motor: 1/4 HP, Single Pole Switch. Wall Plate sold separately

Enerlites HET06A Quick Timer Switch for energy efficiency

The HET06A is a timer switch with the shortest selectable time options in the HET06 series. This timer switch is great for installing in the bathroom, garage, laundry room, and areas where occupancy is generally a shorter period of time. Once the time selected expires, lights automatically switch off, promoting energy efficiency.

The HET06A comes in white and can be easily installed into your wall. The switch utilizes 7 push buttons: 1 ,5, 10, 15, 20, and 30 minutes options, and one manual ON/OFF button.

The timer switch uses 120VAC for residential lighting applications. The switch also has a blue LED indicator, reflecting the selected time and the ON/OFF status of connected load.

6 Preset times for instant savings

LED indicator for selected time & locating

Slim design fit with standard wall plate(wall plate sold separately)

Energy saving technology for a greener planet
