### A Few Words About Bedwetting

It's Common

Nighttime wetting is normal. In fact, 1 in 6 kids experience it.

Give It Time

Nighttime wetting is developmental, and common for kids between 4 and 12.

Communication Is Key

Let your child know it is out of their control. Talking openly will give your kid a better understanding of bedwetting and help you manage it together.

Make Tonight Better

GoodNites products provide your child with overnight protection, and help encourage confidence and independence.
