Gaming Headset for PC Laptops & Mac Stronger Bass & Virtual 7.1 Surround Sound

V22 pc headset is an upgraded model from V20 headset. Based on many customers' feedback and requests, our sound engineers bring strong bass sound on V22, so you will absolutely enjoy better surround & deep bass sound to have more fun when gaming.

Noise Cancelling Microphone

This gaming microphone is flexible and retractable, convenient to use. The cardioid microphone reduces ambient noise for enhanced voice quality, to pick up your voice clearly and loudly. You will have smooth communication with others from this product.

Comfortable Fit for You

As an upgraded product, V22 has bigger-size earcups, easily adjustable headband, and thick foam padding. These bring you with ease and comfort, suitable for long gaming sessions.

Extra Software to Get More Features

V22 USB Headset is a "plug and play" headset. Plug into USB port on your computers, change the sound settings, and the headset works.

For Windows devices, you can download and install the extra software to get more sound features, such as the enhanced surround sound, Microphone with voice changer feature, and etc. You can get this software from Jeecoo web.

Questions & Answers:

Q: Does the headset work with Mac devices?

A: Yes, this product perfectly works with PC, computers, laptops, including Windows devices and Macbook products.

Q: Do I need extra software/driver to use the headset?

A: This pc headset is a "plug & play" product, no need extra software.

Q: How to set up on my computer?

A: Connect USB plug onto the ports on your computers, go to sound settings, choose "USB device" as output and Mic input, and it works.

Q: Do the lights change colors?

A: Yes, the RGB lights on both sides have 7 different colors, and they colors change all the time.

Q: Does it work with Xbox One S?

A: No, this headset only has USB plug, no 3.5mm plug, it won't work with Xbox One/Nintendo Switch. Review 2021, feedback 2021, promo code, discount code 2021, buy, picture, description, sale, price comparison, cheap, cheapest, value for money.
