

Nixon Regulus Review-2021

[Read Customer Reviews](#)

Imported

Regulus, All Black. High-tech and element-proof, the all black 46mm Regulus is a "Basic Operation" watch, ultra-durable and designed with input from U.S. Special Operations personnel. The Dna. Beyond the time, the Regulus has extreme 100m water-resistance, dual chronographs, and oversized LED backlight display. Top that with a 5-year battery life and shock-absorbent materials.

Undercover. The Regulus was built to make missions more than possible. Equipped with a silent mode option and a looper lock strap, it ensures comfort and security on every covert op.

Fueled By Adventures. We deliver products that meet your needs in various high-intensity work and play environments, whether it's across the globe or close to home.

For A Life Well Lived. Through our dedicated teams perspectives, we contribute to a single unified expression: team-designed, custom-built accessories. For a life well-lived.

DESIGN
The rugged functionality of tactical gear was the main driver behind the Regulus' aesthetic. Each feature and material was deliberately chosen to meet the exceptional standards of America's fighting elite.

SPECIAL FEATURE

Features dual chronograph timers, three independent alarms, adjustable LED brightness for light-sensitive situations, and a silent mode that keeps you stealthy.

DURABILITY

Poron foam between the Regulus' brain and case gives it a shock-blocking shell, water-resistant pushers give you access to info underwater, and a five-year battery gives you the freedom to head out on any adventure with confidence.

MOVEMENT

Custom digital LCD module encased in a protective PU jacket and Poron foam padding. Review 2021, feedback 2021, promo code, discount code 2021, buy, picture, description, sale, price comparison, cheap, cheapest, value for money.
