

NURSAL 24 Modes Dual Channel TENS EMS Unit Muscle Stimulator for Pain Relief Therapy, Rechargeable TENS Machine with 12 Pcs Electrode Pads/Continuous Stable Mode/Memory Function Review-2021

[Read Customer Reviews](#)

A/B DUAL CHANNELS TENS: You can set separate modes and intensities for channel A and channel B, and you can operate it with different intensity settings for each channel. Relax your body and have pain management anytime you feel the need with our NURSAL TENS electrotherapy pulse massager and accessories.

24 MODES CHOICES FOR PAIN RELIEF: NURSAL electronic TENS device has 24 user-friendly pre-programmed massage modes, making it much easier to use than other traditional electric therapy products. (The 24 sub-mode choices selection is under the 6 massage modes.) And mode 1 & 2 are stable pulse modes which not fade in and out every few seconds, can use when you are working.

POWERFUL RECHARGEABLE BATTERY: No worries about treatment interruption for dead AA batteries any more! This tens massager can give you continuous use up to 20 hours! It can be connected to the wall charger, power bank or laptop USB port to charge, and the power indicator would keep you aware of the remaining battery life.

ADJUSTABLE TIMER & INTENSITY: The timer allows you to set a time of between 10-60 minutes, with the default set to 20 minutes. Twenty levels of adjustable intensity mean you can easily find one setting that suits your needs.

ENJOY WITH THE PORTABLE DESIGN: This NURSAL TENS unit device comes with a carrying bag, allowing you to carry it anywhere when necessary. It comes with 1 pcs TENS Unit, 8 pcs 2" Square pad, 4 pcs 2"x4" Large pad, 3 Lead Wires, Pads Holder, USB Cable, Pouch, Cable Ties, User Manual, 12-month warranty, and 24-hours online friendly customer service. 24 Modes (EMS & TENS) [Include steady pulse mode]

There are 2 stable pulse modes among the 24 modes

Mode 1 and Mode 2, which can steadily output current and reduce the stimulation caused by pulse instability. This ensures that the elderly or sensitive people will also enjoy themselves with NURSAL Tens Unit.

Our TENS machine relieves your pain and improves physical function via physical therapy instead of medication. It sends small, safe, low-frequency current and continuous stable pulses to the skin pad through wires. The pulses pass through the central nervous system and can stimulate deeper tissues and muscles than human hands, producing a slight tingling or buzzing noise without unpleasant side effects.
