

**Premium Garlic Press with Soft Easy-Squeeze Ergonomic Handle, Sturdy Design Extracts More Garlic Paste Per Clove, Garlic Crusher for Nuts & Seeds, Professional Garlic Mincer & Ginger Press - by Zulay Review-2021**

[Read Customer Reviews](#)

**Simple To Use & Built To Last:** This premium garlic crusher and mincer is constructed from high-quality, food-grade materials meant to extract more garlic paste from cloves. Easy to use with a comfortable ergonomic design for quick results and minimal effort on your wrists and hands. Perfect for professional and home kitchens alike.

**Crush and Mince Unpeeled Cloves:** Peeling and chopping garlic can be tedious and messy work. Not to mention the strong odor of garlic left lingering on your hands. Thanks to the heavy duty and ergonomic design of this sturdy garlic press, you can crush and mince unpeeled garlic in one single move, yielding beautiful and delicious garlic pulp.

**Easy To Clean:** Simply rinse your press under running water or place in dishwasher for thorough cleaning. We recommend rinsing right after use to avoid residual garlic pulp and fibers becoming hardened.

**Multi-use Tool:** Don't have mortar and pestle? Fill the garlic press chamber with coriander seeds, cumin seeds or peppercorns when any recipe calls for "freshly cracked" or "coarsely ground" seeds. This amazing garlic press also enables you to crush ginger, onions and crush nuts. Simply fill the garlic press chamber and squeeze to crush.

**Great Value with 100% Money Back Guarantee:** This top quality Garlic Press is moderately priced yet constructed to last, providing you with incredible value. We are so confident you will love your new Garlic Press that if you try our product and are not 100% satisfied we will be glad to issue a full refund or free replacement.
