[Read Customer Reviews](#)

Magic cable - turn your Oculus Quest or Oculus Quest 2 into a Rift S with this 5m cable; this 16ft cable allows you to plug your Quest into your pc and play all the Rift S games and Steam games, you can also plug it into any standard USB plug to charge your Quest or Quest 2

Tested to work - we did a test to over 400 customers with different computers and have over a 99% success rate

High quality and durable: usb-if certified, our factory produces the highest quality cables that allow data transfer speeds up to 5GB/sec at 5m length with 10000x bend capacity, you will not experience any lag or delay with our cable

Charging capability: our link cable allows you to charge your Quest/Quest 2 vr headset while playing; your Quest will never run out of power while in the middle of your favorite game, max voltage rating 20v/ current 3a

Satisfaction guarantee - if you are not 100% satisfied email us for a full refund We are a small family-owned business in the USA.

Our story

How we got our start?

We got started about 15 years ago opening up a cell phone store in my local area. I eventually found that selling online had many benefits to having a brick and mortar store and closed up our stores to work from home.

What makes our product unique?

We love selling a product that makes a customer happy and will enjoy using every day.

Why we love what we do?

We enjoy being able to work from home and be with my family every day and make my own hours. We are a small business in the USA family owned and operated.
