Our story

How we got our start?

Propelled by our desire to introduce classic toys to a new generation of children, YoYa Toys got its start back in 2016 by two best friends. Since we were 6 years old, we’ve dreamt of finding a way to hold onto the fun of creating toys, outdoor games, and squishies – that dream turned into YoYa Toys.

What makes our product unique?

Fun and joy are at the core of who we are; but sensory toys like our squishies and stress balls also have a calming and satisfying effect! Plus, in an increasingly tech-based world, our outdoor toys keep your child active. Our wide range of toys provide timeless entertainment for kids of all ages!

Why we love what we do?

Founding YoYa Toys allowed us to have as much fun as 30 years ago, when we were making up games until dinner was ready or the sun went down. It’s our hope that our toys inspire the same lighthearted feeling in today’s youth; for, it’s this feeling that grew our small business into a global brand.
